PEACH-SPECIAL

The following lots, Codes *Penny* to *Pellet* inclusive are not of our own growing, being the Surplus of one of the large Southern retail firms. The trees are strictly merchantable but do not have quite the "Class" of Chase's Alabama Grown, not as many fibrous roots, not quite as smooth as our stock, varieties a little off. We are putting a low price on this lot and they are MIGHTY GOOD VALUE AT THESE FIGURES.

Pruning Shears

Watch Spring, French, 8 Inch—Per pair postpaid, \$1.35; per doz. pairs, freight or express \$14.50. (Weight per dozen pairs 7 lbs.)

Watch Spring, French, 9 Inch—Per pair postpaid, \$1.70; per doz. pairs, freight or express \$17.00. (Weight per dozen pairs 11 lbs.)

Watch Spring, French
8 inch

The Watch Spring French Shears stand at the head of the list for making cuttings of all kinds. For this work the 8 inch size is just right. For cutting back seedlings to the bud or any heavy work the 9 inch is recommended. In making cuttings the shears used should make a quick, clean cut (which these shears do to perfection) and they should have a properly proportioned grip to enable the operator to do a full days work without cramp. We have used this make for years and find that it fills the bill better than any others we have tried. Once in a while a spring will break. We now import extra springs and can supply either size at all times for 20c. each postpaid.

Ladies' German—6 in. full nickle-plated; volute spring. Not large enough for general use. High grade, beautifully finished, large enough for use about rose bushes or shrubs in the garden, or for light work. 75c. per pair, postpaid; \$8 per dozen pairs by freight or express. Weight per dozen pairs, 2¼ lbs.
